DETAILED ACTION

Claim numbering

The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Newly submitted claims 10-28 have been renumbered 15-33 (please note that claims 10-14 which depend upon canceled claims remain pending as they were not canceled in the preliminary amendment (Paper No.5).

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

Art Unit: 1654

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 15-19, drawn to a pharmaceutical composition comprising a water-soluble extract of *Palmaria palmata*.

Group II, claim(s) 20-23, drawn to a method for recovering the water-soluble extract of *Palmaria palmata*.

Group III, claim(s) 24-33, drawn to a method for treating a viral infection via administration of a water-soluble extract of *Palmaria palmata*.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The claims lack a special technical feature because the intended technical feature is known in the art as evidenced by Galland-Irmouli et al. (1999) (p.354 'Obtaining algal protein extract').

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
